The Iris Network is a 501(c)(3) nonprofit located in Maine. Working in partnership with the Maine Division of the Blind and Visually Impaired.

the
Iris
network
Vision with no limits.

Serving people with vision loss since 1905.

The leading causes of vision loss, such as macular degeneration, diabetic retinopathy, and glaucoma, can affect one's ability to perform daily activities such as reading, driving, recognizing faces, taking prescription medication, paying bills, and seeing fine objects.

We offer a variety of services aimed at assisting individuals to live independently, enhance

their vocational skills, maintain their current employment, or even pursue a new career path.

People who receive services from The Iris Network are taught new ways to complete daily tasks, which allow them to maintain their independence and avoid the need for costly and unnecessary nursing home care.

We also introduce and provide instruction on how to use various tools and techniques, such as magnifiers, Braille, labeling methods, and devices that convert text into audible speech.

Our vision is to build a world where no person is limited by vision impairment or blindness.

Thanks to the kindness and generosity of people like you, The Iris Network is able to provide solutions that can significantly enhance the quality of life for those affected by vision loss.

We appreciate your support!
